Public Meetings

2006 Emergency Levee Repairs

The California Department of Water Resources has scheduled a series of six public workshops to discuss emergency repair work schedules and plans for 29 critical erosion sites on the Sacramento River Flood Control System.

Repairs are expected to begin in June at three sites on Cache Creek near Woodland in Yolo County. Repairs at other sites will begin shortly thereafter, and conclude by November 1, 2006.

DWR, with the assistance of the U.S. Army Corps of Engineers, will offer brief presentations outlining the erosion problems of nearby sites and construction schedules.

DWR and Corps officials also will be on hand to answer any questions or listen to comments from the public, as well as provide educational materials on the emergency repair process.

The meeting schedule is:

WOODLAND REGION: June 7, 2006 - 6 p.m.

Woodland Public Library, Leake Room
250 First Street, Woodland, CA 95695

YUBA/SUTTER REGION: June 19, 2006 - 6 p.m.
